He hopes the citizens of Indianapolis, and of the State, who who wan: a complete view of the Capital of Indiana, in oil colors, will subscribe to one or more copies. "Those on colors, with anoscribe tor one or more copies. Phose who want a copy will do well to subscribe, as there will be no copies struck off only to those, who order them. The drawings are all complete and in the hands of the engraver, and the view will be ready for distribution about the middle of September, unless some unavoidable occurrence should delay it. The general view of the dity is from the dome of the Blind Asylam, overlooking the whole city, and making a paporamic view of the most pleasing description. There will also be a view looking through Washington street, showing up every business house, with the activity and bautle of the street. The churches, depots, sublie houses, m. nufactories, and public institutions, will form a bordering around the main view. There will be nothing left off that has any interest in it. The Opposition to a Democratic Administration

The bitter and vindictive hostility of the "opposition press" of this country, to the administration of Mr. Pierce, is akin to that waged against those of Mr. Polk and President Jackson. We can expect nothing like justice or impartial judgment from a press and party whose very instincts are anti-Democratic and anti-republican; and in the present state of the opposition to be visited upon the Democratic party in a more intense degree than

Innumerable factions have arisen in the land, displacing the old national Whig organization, which have abandoned its fundamental creed, but which are imbued with a spirit of deadly hatred to the great national Democratic party. From these factions the President expects opposition of the most malignant character; and in that expectation he is not disappointed. Not one of his acts but meets their severe condemnation. From the New York Tribune, the incendiary organ of a monstrous hydra-headed party, down to the lowest and most puny eight-by-ten sheet which follows in its wake, the administration and it friends are assailed with the utmost rancor. Is an acquisition of territory made, peaceably and with the expenditure of money alone, the advantages of that acquisition are underrated by them-it is characterized as " a naradvantages, considered in reference to the fact that it affords us a much needed route of communication between the interior and the Pacific States, and in reference to its actual value as an agricultural and mineral possession, are not once mentioned in their strictures upon the policy of acquiring it, and the benefits to be derived therefrom. We refer to the late purchase from Mexico. They are anxious to make the people believe, that for a large sum of money, we have not obtained a fair justice to the administration or to the Senate of the United States, which ratified that treaty. Generally speaking, those who have harped so much against the President on this account, know but little, if anything, about the country, its soil, climate, productions, or the advantage that will probably result from its purchase. But if even it had been a bad bargain, we could see no reason for the attacks made upon President Pierce.

Hardly had the acquisition been made, when claimed so much against it, were advocating the purchase of a part of the Russian possessions. The Toledo Republican, remarking upon this, says :

"It (the Tribune) goes in for the purchase of the extensive lot of icebergs, and the large population of white bears which constitute Russian possessions in America, in the words following, to wit:

We are quite rich now, and if Russia will sell cheap, we know of no good reason why we should not annex this new slice to our dominion. We will need it, sooner or later.' "Of course we will-but consistency is a jewel. If the Tribune 'can see no good reason why we should not annex' Sitka, wholly disconnected with our present territory, and intrinsically as valueless as any place this side of the North pole can be, in the name of common sense what 'good reason' can it see why we should not have annexed the territory lately bought from Mexico, which affords us a much needed route of communication be-tween the Atlantic and Pacific States of the Union, to say nothing of the probable mineral and agricultural value of the 'slice' of Sonora and Chihuahua, including the valley of the

So, when Cuba or the Sandwich Islands are mentioned, the "opposition press" stand ready Democracy of that State." to open their batteries on the administration.

But not alone in respect to the purchase of territory, but in every other, do they display their uncompromising ill-will and malice. Does this Democratic administration sanction the gallantry of a brave officer in the navy in protecting an American citizen, in a foreign port - does it vindicate the honor of "our flag " or declare its determination to avenge repeated and gross insults—they pounce upon every such act and declaration, and con rithout a hearing. They wait not for facts to be disclosed in any case, and when they are will the true men of that party. The Condeveloped, they will not yield their opposi-

n in obedience to a sense of right and justice. The foreign and domestic policy of the administration are alike assailed. Not satisfied with their vain attempts to prejudice the public mind against the straight-forward conduct of the administration, and its advisers and supporters-they assail the private character of each, make reckless charges of bribery and corruption, and hurl their foul and mali-

cious slanders against them. The administration has naught to fear. The American people know too well the character of this opposition, and the motives which prompt it. They will uphold the President in his firm determination to administer the government upon Democratic principles-to make such acquisitions of territory as will result beneficially to the great and important interests of the country at large - to defend the national honor-and to protect everywhere the rights of American citizens in their persons and property.

No Slavery in Kansas.

Read what a Freesoiler says about the prospect of slavery in Kansas! Richard Menlenhall, an avowed Freesoiler, writing from Kansas Territory, expresses the following opinion in relation to the probability of slavery in Kansas:

"A gentleman from Platte County, Missouri, staid over-night with us recently, and he says, there are hundreds of men in Missouri, who will move into the territory to get away from slavery. It is not likely that any considerable number of slaveholders will come here from any other State than Missouri, and but a small number of those in that State will come; and should they all come, they would not be sufficient to form a State of themselves.

"There are a few slaveholders in the terriory who are advocating the cause of freedom, for they say that the price of one or two slaves is nothing to them, in comparison to the benefits of a free State. There are a few sterling spirits here, who will resist the introduction of slavery to the last. The opponents of slavery are to have a meeting on the 8th inst., at which I trust the standard of liberty will be raised, and I may have something rich to offer in my next,"

We publish the above as counter evidence to the fabricated statements circulated by the abolition papers of the North. Phose papers public mind against the law organizing the territories of Nebraska and Kansas by pubishing reports of resolutions passed at one or wo meetings held in Missouri, and exaggerating those reports. We have not based our advocacy of that law upon the ground that slavery will not go there, but upon a principolitical affairs, we may expect the enmity of ple which we deem sacred-and the only principle recognized by the Constitution .-But when these efforts are made to discourage those unprincipled efforts. George D. Prentice is a partizan in the strict sense of that term, yet we have infinitely more respect for him as such, than for the mongrel who, for the purpose of self agconsideration. This is not right-it is not grandizement, would debase his party to a mere sectional faction, as the combined efforts of fanatics and unprincipled demagogues have succeeded in doing in the North.

If there is a union of the two divisions of the Democratic party in New York, it will be a UNION formed in behalf of great national principles-a union for the sake of principle. Prentice knows well, that the Democracy of New York, when united, will stand upon national ground, and that there will be no abandonment of the national Democratic platform. this same press, or its leaders, who had de- The doctrine of non-intervention will not be should come upon them through the woods compromised or sacrificed. The citizens of Fulton County, Ind., sembled at the Court House, in the town of Rochester, on Wednesday, August 2d, 1854, for the purpose of expressing their continued attachment to the Democratic party, and also their full and hearty acquiesence in the repeal of the Missouri Compromise.

The meeting was called to order by B.

Lawhead, Esq., and on his motion John C. sen President, and Albert G. Brackett, Secretary.

Hon, Graham N. Fitch, having been pr viously announced, then came forward and made a powerful and eloquent speech in op-position to the hybrid abolition party which was recently organized in Indianapolis, and also clearly and conclusively showing that the repeal of the Missouri Compromise was a just and good measure. During his remarks the Court House was densely crowded and many were unable to obtain seats. His exposition of the Know Nothing party was well ione, and he was frequently interrupted by the aplause of his audence.

After the conclusion of Dr. Fitch's speech, Hon. E. Newland, State Treasurer, and the present Democratic candidate for the same ofice, came foward and made an interesting speech relative to the financial affairs of In liana, showing how the State had prospered during thirteen years of Democratic rule and hoping that the same party might continue to guide its affairs. THE REPORTED MURDER OF CHIEF JUSTICE LANDER.-The late California mail brought an account of a massacre by the Indians, at one of the settlements at Puget Sound, in which it was feared that Chief Justice Lander (son of Capt. It is well known in this community that some of us are the oldest democrats in the State, and one of our number is as 'deep red,' as any man in the party—some of our number have fought, bled and died in the democratic cause, and have never held an office of pecuniary benefit during their connection with said party, and delighted at the passage of the Nebraska bill, because it furnished us with a proper excuse for leaving it, and to form a new party under the name of anti-Nebraska, which will enable us probably to become office holders to enjoy the spoils thereof. Every chemist well knows that out of the crude materials of drugs, roots, herbs, barks, plants, &c., it only yields one tenth of medical virtue. We seriously believe than more deaths are caused by overloading the system with useless physic than fr. m disease. No more medicine should be given to a patient than what is necessary to produce the desired effect, and to overload the system with useless drugals not only checking the action of active virtues but inflicting serious labor upon the already shattered constitution.

nire and common bark, or Morphine and O₁ lum.

Radway's Regulators, therefore, are the best pills for
the sick to take, one being sufficient in all ord-nary
difficulties, and two possessing a greater and better
power than any sax of the most approved pills
known.

Radway's Regulators is the third of the R. R. Remedies—the third medical discovery of RADWAY & CO. for the final overthrow of disease, and the restoration of the weak and decrepid invalid to health. Each of the three Remedies possess wonderful powers over certain diseases—the Relief, for all acute maladies; the Resolvent, far chronic diseases; and the Regulators, for the effective regulation and a healthy and harmonious action of all the organin the human system.

vent, far carronic diseases, and the Regulators, for the cffective regulation and a healthy and harmonious action of all the organs in the human system.

Radway's Regulators are most carefully prepared from extracts and gums of nees, plants, roots and herba. There are no pills in use that will act upon the Liver, Pancreas, Boweis, Salvary slands and Aerves, so pleasantly and so effectually as the R. R. Regulartors. No pills can be taken or any length of time with the same safety to the constitution; for instead of debilitating the system by powerful and drastic purging, they act pleasantly upon the bowels and inspart strength to every nerve and tissue of the body.

One of the Regulators, taken on going to bed, will insure a regular and healthy discharge from the bowels in the morning. In cases, where eight and ten of the common pills are used for irree evacuations, two of three of the Regulators are sufficient.

NO CALOMEL,
or other poisonous drug enters their composition—they are entirely vegetable. They are pleasant to take, elegantly coated with a medical gum, are perfectly tasteless and rece from smell. No person will feel any disagree able symptoms from taking a dose of Regulators.

BLOOD
Mankind bave thought that this wonderful fluid caa Mankind bave thought that this wonderful fluid can be purified by the action of specific remedies directly upon it, as an egg or a piece of isinglass prifies our coffee, and myriads of remedies pretend to this (miraculous) virtue. We deny that any such virtues ever be longed to any medicine, and sound and simple reasoning bears out our conclusions. The liver, sidneys, skin, lungs and bowels are the sewers that nature has established to purify the blood. The face-, bile, urine, and the exhalations of the skin and lungs are but the offals and impartites which these sewers, so to speak, east of from the system. If you would purify the blood, regulate and keep clear the sewers that nature has established for the purpose, Radway's Regulators encourages and secures regularity of the liver, kidneys, skin, bowels, or cetera. They are never at variance, but always as the processes of nature.

The public may rely upon the prompt efficacy of Radway's Regulators in securing this healthy and regular action, and the quick and effectual removal from the body of Costiveness, Indigestion, Heart-burns, Dyspepsia, Liver Compaint, Jaundice, Headachas, Nervousness, Depression of Spirits, Melancholy, and all FEMALB DIFFICULTIES,

The rule (31) to permit submission with leave to file brief in sixty days is found to operate injuriously—In too many instances when the period has elapsed, the case stands submitted without brief.

The 13th rule is also found to be prejudicial to the business of court and the safety of records; as under it records have been taken out and kept for mouths and even years. There are now about 290 records in that situation—many of them, it is feared, lost.
